Safety Inspections: Effective safety and health inspections are one of the most important incident/accident prevention tools in a company's safety and health program. Using properly trained inspectors in a planned inspection program will reduce incidents and property damage. An effective safety inspection program will improve worker communication, company morale, and, over time, save the employer money. Thursday, April 28 8am-12pm at NCCOC

Violence in the Workplace: Test your current knowledge regarding sexual harassment, workplace violence and discrimination in the workplace, review the history of sexual, other discrimination legislation and current organization policy regarding harassment, violence and discrimination, recognize and recall the legal definition and conditions of sexual harassment, identify and explain the losses to the company/organization, the victim and the harasser of harassment and violence in the workplace, identify harassing behavior and select actions that could or should have been taken to prevent harassment situations and/or confront a harasser in the workplace, identify the legal responsibilities and liabilities of supervisors in the workplace in preventing and intervening regarding harassment and violence in the workplace. Tuesday May 3 from 8am-12pm @ NCCOC

Local Business Book Club: This month's book is, 'Sam Walton: Made in America,' Copies will soon be available for loan at the Akwesasne Cultural Center – Library.
